WHY BCAST SAVES YOU BUNDLES!

Streaming video uses a lot of bandwidth, and without **bcast** would cost you for your live video upload as well as all the downloads from your community. An hour of streaming once a week could end up costing as much **as $5,000* a month!!** Not to mention the hassles of site hosting, archival storage, streaming server licenses, and don't forget the complexity. **No way!**

A **bcast** Community Site will deliver high quality live streaming video for a fraction of the standard cost of **bandwidth alone,** but that's not all!

COMMUNITY PACKAGE FEATURES:

> Custom-built Community Site
> Site Hosting
> News, events, galleries
> Online store, blog, forum, newsletters
> Donation remittance
> Live Stream and **bcast** portals
> Archival of all recordings

AND ALL YOU PAY IS BCAST TIME.

Contact us to discuss your requirements, and discover just how affordable **bcast** can be.
